

Product Specification Sheet:

Compact Plus

Height Adjustable Bath with Powered Seat

able
Healthcare

Highlights:

- **Height adjustable** to minimise carer handling strain
- **1600 mm or 1700 mm** options
- Integrated **powered seat system** for safe transfer (detachable option)
- **Seat transfer trolley** for easy bathroom to bedroom transfer (with detachable seat option)
- **Robust GRP** panels and leg covers

The Compact Plus feature packed bath is an ideal choice for a Care Home environment with its unique shape and height adjustable design to give **maximum comfort to the bather and minimal strain and ease of use for the carer**. With a proprietary bearing system, multi-layer GRP panels, and high grade 304 stainless steel parts, the Compact Plus has been built to the highest standard, designed for longevity.

The integrated powered seat, with its clip and lock lap strap and nursing arms plus obstacle sensor, enables bathers to transfer safely and comfortably. The seat is shaped to give optimal carer access, especially with the comfortable seat option. There is a detachable seat option where the seat can be completely removed, and a headrest fitted to enable comfortable bathing when the seat is not in use. A transfer trolley is available for safe and smooth transfers.

The **unique internal shape gives** the bather a spacious but supported bathing experience. The smooth lines also allow for easier cleaning and superior hygiene control.

The **Showersafe gantry system is Kiwa KUKReg4 approved** and provides backflow protection to fluid category 5 level. It also includes TMV3 temperature control. The bath filler is fitted with a separate TMV3 temperature control.
